DABLOCK ACADEMY ON SKOOL

Explore the free curriculum and private membership.

DaBlock keeps its public learning, tools, marketplace pathway, jobs, and reviewed bounty access free. Dablock Creators is the optional private, paid group on Skool.

A clear boundary

Pay for the private Academy experience, not for access to work. Membership never guarantees income, marketplace approval, or bounty selection.

THE MODEL

Free public resources. Private membership.

Each layer has a different job. The public portal should be useful before a creator is asked to pay.

FREE ON DABLOCK

Learn and build in public

- Guides, playbooks, blog, and glossary
- Content Checkup, Creator Fit, and Content Studio
- Marketplace standards and moderated listing submission
- Source-linked jobs and reviewed bounties when available
- English and Spanish portal routes

PAID ON SKOOL

Join the private Academy

- Private Skool membership
- Membership and payment managed on Skool
- Confirm the private content and activities
- Ask which teaching languages are available
- Current price and billing terms shown by Skool

Review the current price and billing terms on Skool. Confirm the private content, activities, teaching languages, and availability before joining. Questions: lv@dablock.com.

LEARNING FOCUS

Try the public creator track.

The free creator track links to public guides, manuals, articles, and tools for these six tasks. It is a preview of the public curriculum.

- Positioning: define who you help, what you make, and why your point of view matters.
- Content systems: move from research to scripting, production, review, and distribution.
- Offers and proof: package a service or product with clear scope, examples, and pricing logic.
- Distribution: build an owned audience and a repeatable publishing rhythm.
- Marketplace readiness: prepare a bilingual offer that a buyer can understand.
- Delivery: handle briefs, rights, revisions, deadlines, communication, and reliable handoff.

Prepare a draft you can review.

Use the free resources to prepare a draft you can review. Ask LV about the private membership before deciding whether to join.

WORK STAYS SEPARATE

Membership is not pay-to-work.

DaBlock separates learning membership from marketplace moderation and opportunity review.

- Marketplace submissions are reviewed for identity, ownership, clarity, evidence, pricing, delivery, and terms.
- Bounties require a named sponsor, funded budget, explicit deliverables, current dates, payment terms, and usage rights.
- Creators can use public jobs and approved bounty routes without an Academy membership.
- Paying for the Academy does not create a verified badge or bypass review.
- DaBlock does not currently process native marketplace payments or escrow.

This separation protects creators, buyers, and the credibility of the Academy.

RESUMEN EN ESPAÑOL

Valor público gratis. Academy de pago opcional.

DaBlock mantiene gratis el aprendizaje, las herramientas, la ruta de marketplace, los empleos con fuente y el acceso a bounties revisados cuando existan. Dablock Creators es el grupo privado de pago opcional en Skool.

- La membresía se gestiona y paga en Skool.
- Consulta el precio y las condiciones en Skool. Confirma el contenido privado, las actividades y los idiomas antes de unirte.
- La Academy no garantiza ingresos, clientes, aprobación en el marketplace ni selección para bounties.
- Las ofertas y los bounties pasan por procesos de revisión separados.
- Las rutas principales del portal DaBlock están disponibles en español e inglés.

Recursos públicos y membresía privada por separado.

Empieza con los recursos gratuitos. Si tienes dudas sobre la membresía privada, escribe a lv@dablock.com antes de decidir.

BEFORE YOU JOIN

Review the live Skool offer.

The Academy page on DaBlock previews a public exercise and explains the private membership. Review the current price and terms on Skool, and confirm the private programme before joining.
